Paid Research Positions

Join the Parent Villages Research Team!

Gain real world applied research skills. Students will be paid to work 10-12 hrs/week and be enrolled in an upper level HDFS independent study course. Students will help with all phases of the local community engaged research project.

Responsibilities include:

- recruiting study participants
- assisting with online survey distribution and data management
- observing parent workshops
- scheduling workshops, focus groups and interviews
- helping organize and analyze qualitative data
- attending virtual and in-person community meetings

Requirements include:

- strong communication and teamwork skills
- completion of one research methods class
- passion for working with parents and families

Bilingual (Spanish and English) applicants are especially welcome.

APPLICATION PROCESS:

Email Dr. Melissa Barnett -
barnettm@arizona.edu

1. Brief description of why you are interested in this position.
2. Resume or CV
