What's my platform?

Take our quiz to find out whether REDCap or Qualtrics is better for you!

1. **How would you rate your expertise in creating web-based surveys?**
   A. Beginner
   B. Intermediate
   C. Expert

2. **Does your project involve longitudinal data?**
   A. No
   B. Yes, but only 2 time points
   C. Yes, more than 2 time points

3. **How important are the aesthetics of the survey to you?**
   A. I want a pretty survey
   B. Pretty is nice, but not essential
   C. Function over form

4. **How much do you want a publicly-accessible live dashboard of survey results?**
   A. NEED it
   B. Nice, but not essential
   C. Not necessary

5. **How important is automated translation for your survey?**
   A. Very important
   B. Nice, but I can translate it myself if needed
   C. Not necessary

6. **How essential are fun, visual survey options?**
   A. Essential, I'm giving this survey to 4th graders
   B. Nice, but not a deal breaker
   C. Not necessary

7. **Does this project involve sensitive or protected data?**
   A. Nope
   B. Yes, but nothing involving human subjects research or protected health information
   C. Yes, data security is important for this survey

8. **How comfortable are you with coding or scripting for data analysis?**
   A. I'd rather not
   B. I can if I need to
   C. I prefer to script everything

9. **Does this project require completion of a consent form?**
   A. Nope
   B. Yes, but no signatures required
   C. Yes, signatures required

10. **How many collaborators are working on this project?**
    A. None—it's just me
    B. A few, but all within my organization
    C. Lots, with different roles too

Scoring Guide

Mostly A's	Mostly B's	Mostly C's
Qualtrics is the name of your game. With slick design and custom reporting features, your next survey product will look great.	**The choice is yours! Both Qualtrics and REDCap will work for your project, so pick the one that's calling you.**	**REDCap is the way to go here. You've got a complex project and some data skills, so take full advantage of a powerful research platform.**
