

MENTORSHIP OPPORTUNITY

Are you interested in serving your community and empowering the next generation of healthy leaders? Our mission at HealthCorps - to improve the lives of youth, both mentally and physically - provides you the opportunity to do just that!

Educational Programming

You will gain hands on experience leading our health and wellness club, Teens Make Health Happen, in area schools and by supporting teens in planning and leading wellness programming.

Leadership Experience

Your commitment to this program will require you to manage a TMHH Club at 1-2 school sites/campuses, with 3-4 hours of in person program facilitation and 2-3 hours of virtual admin work.

Service Learning

As a mentor, you'll guide students in your club through interactive health lessons and support them in leading health events that benefit their school campus and community.

WHO IS HEALTHCORPS?

We're HealthCorps - a national, non-profit organization committed to improving lives by addressing health inequities in communities through programming that includes innovative and engaging experiences for teens in education, leadership, and service learning.

AN INNOVATIVE CLUB:

- ◆ Empowers teens to use their passions to improve their well-being, tackle pressing health challenges facing their peers, and grow as leaders in their community
- ◆ Hosted by one of our near-peer college mentors (YOU!) in middle schools and high schools, during or after school!
- ◆ Meets with students weekly
- ◆ Engages participants in interactive health lessons centered on our 3 main pillars: physical health, mental health, and community health
- ◆ Supports teens to lead monthly campus-wide health promoting events

TEENS WHO PARTICIPATE WILL:

RECEIVE HANDS-ON
HEALTH
EDUCATION

GROW IN
CONFIDENCE &
LEADERSHIP

INCREASE
CONNECTION
WITH OTHERS

AND MAKE A REAL IMPACT IN THEIR COMMUNITY!
